Tech stack

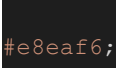

- HTML
- CSS
- Deployment: Github Pages
- Source control: Github

Sitemap/Overview

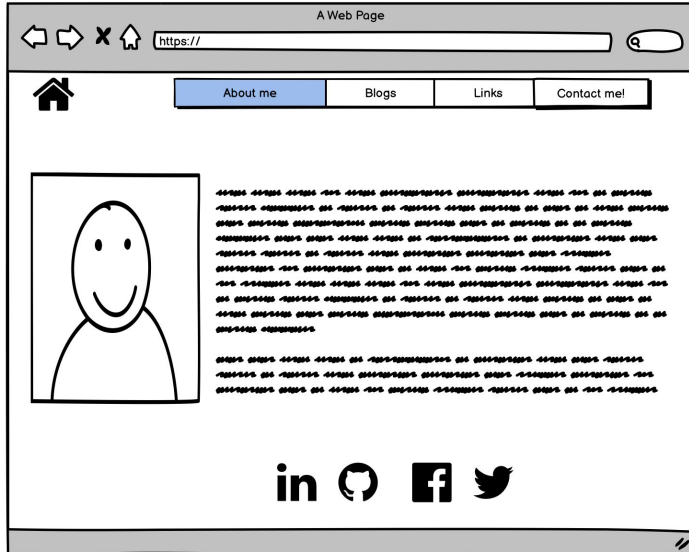

Web Design

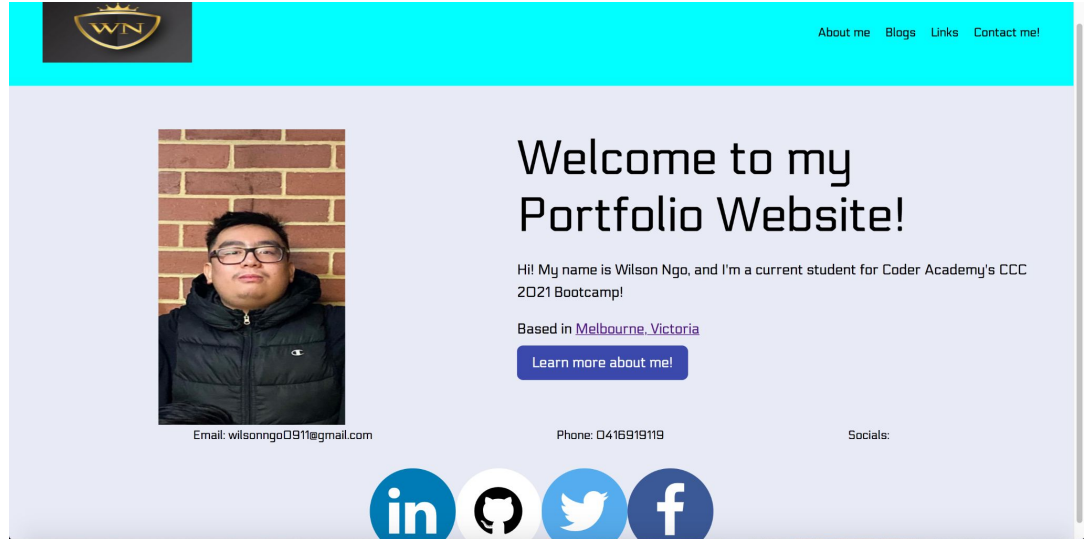

- Very simple design all across the site
 - No background images or effects (i'm too noob)
 - Two main colours:
 - Aqua (Navigation bar)
 - Greyish clay  `#e8eaf6;`
 - (background colour)
 - Main font-family used was "Electrolize" across site
-

Home Page - Desktop

Wireframes:

Actual Design:

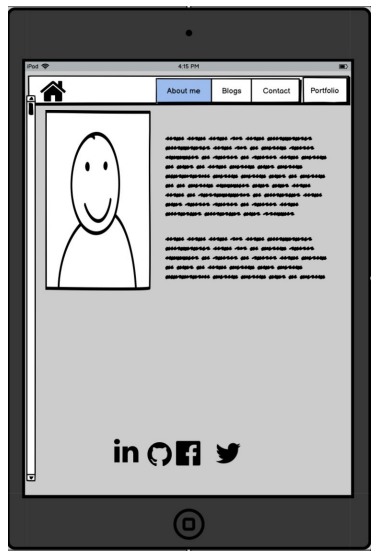

Home Page - Desktop

Components and features:

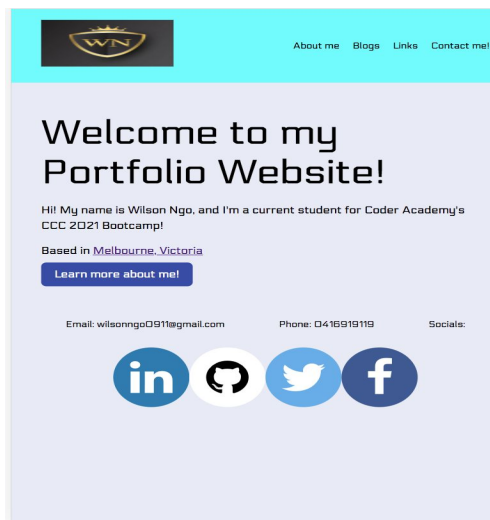

- Navigation bar (home, about me, blogs, links, contact me)
 - Navigation includes a hover effect making it rotate and turn white
 - Profile Image
 - Brief Introduction
 - Social icons (with functioning links!)
 - Learn more anchor tag that redirects to “about me” document
-

Home Page - Tablet

Wireframes:

Actual Design:

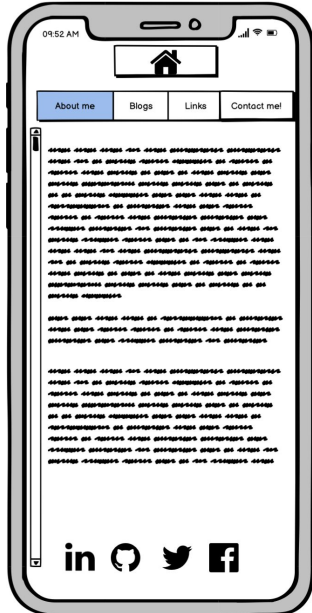

Home Page - Tablet

Components and features:

- Navigation bar
 - Profile Image removed (too much work involved trying to adjust, mistake on my part for not creating mobile size first)
 - Brief Introduction
 - Social icons (with functioning links!)
 - Learn more anchor tag that redirects to “about me” document
-

Home Page - Mobile

Wireframes:

Actual Design:

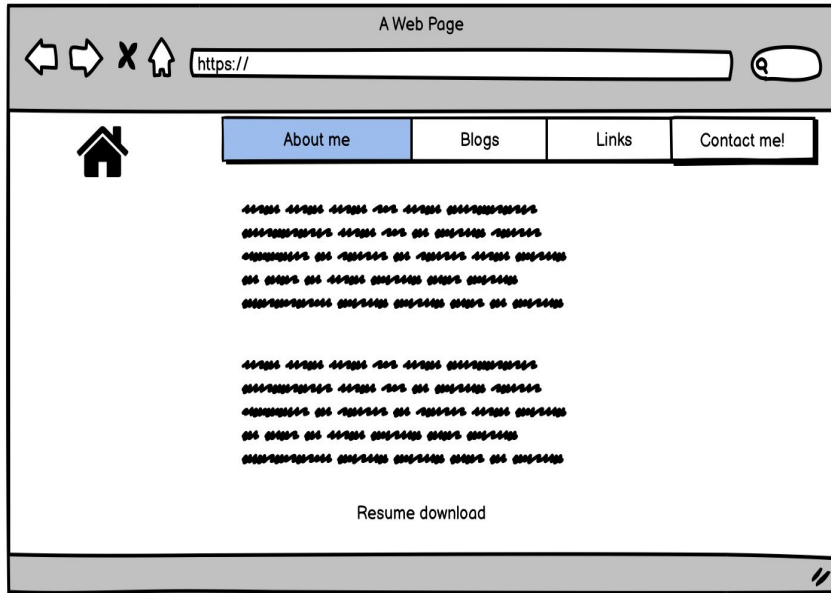

Home Page - Mobile

Components and features:

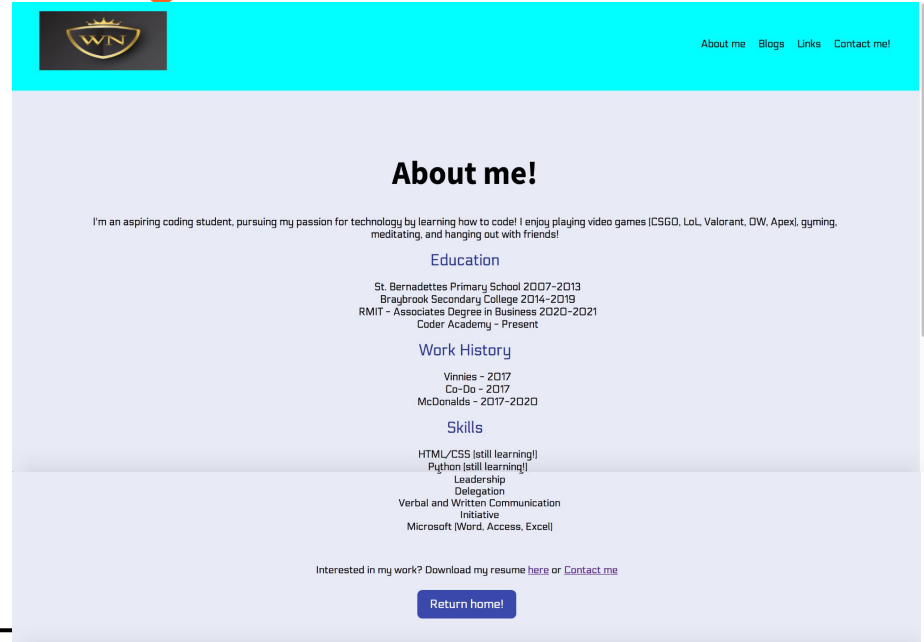

- Navigation bar
 - Profile Image removed (too much work involved trying to adjust, mistake on my part for not creating mobile size first)
 - Brief Introduction
 - Social icons (with functioning links!)
 - Learn more anchor tag that redirects to “about me” document
-

About me - Desktop

Wireframes:

Actual Design:

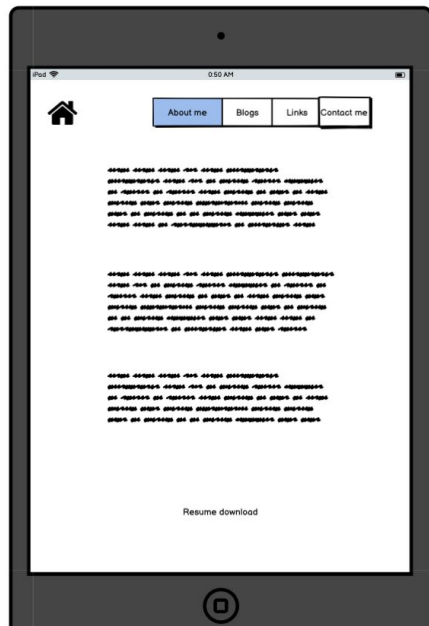

About - Desktop

Components and features:

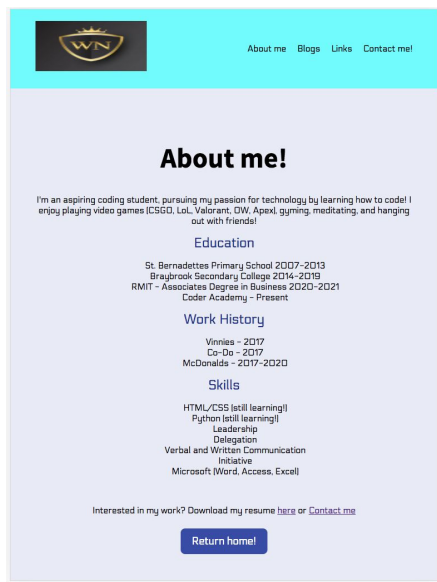

- Navigation bar
 - Content (Bio, Education, Work History, Skills)
 - Unordered lists (to list dot points of content)
 - `<a>` to link resume
 - Scroll bar
 - “Return home” anchor tag that directs users to landing page
-

About me - Tablet

Wireframes:

Actual Design:

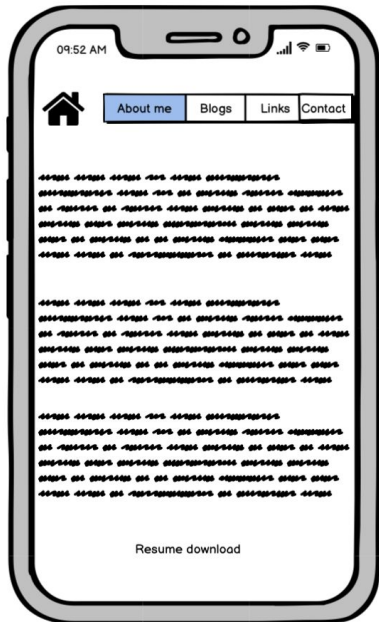

About - Tablet

Components and features:

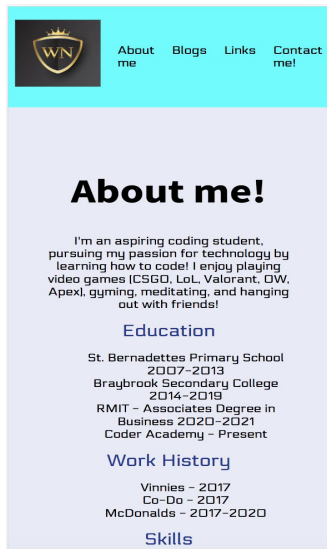

- Navigation bar
 - Content (Bio, Education, Work History, Skills)
 - Unordered lists (to list dot points of content)
 - `<a>` to link resume
 - Responsive design to tablet size (max-width)
 - No scroll
 - “Return home” anchor tag that directs users to landing page
-

About me - Mobile

Wireframes:

Actual Design:

Second
half
(scrolled
down)

First half
(scrolled
up)

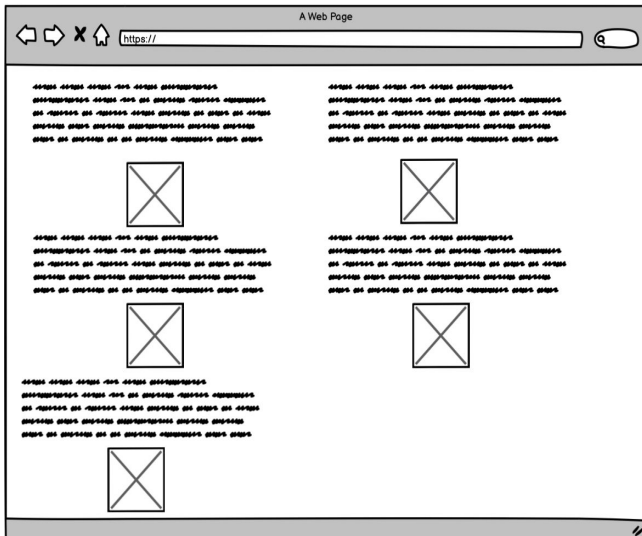

About - Mobile

Components and features:

- Navigation bar
 - Content (Bio, Education, Work History, Skills)
 - Unordered lists (to list dot points of content)
 - `<a>` to link resume
 - Responsive design to mobile size (max-width)
 - Scroll bar comes back
 - “Return home” anchor tag that directs users to landing page
-

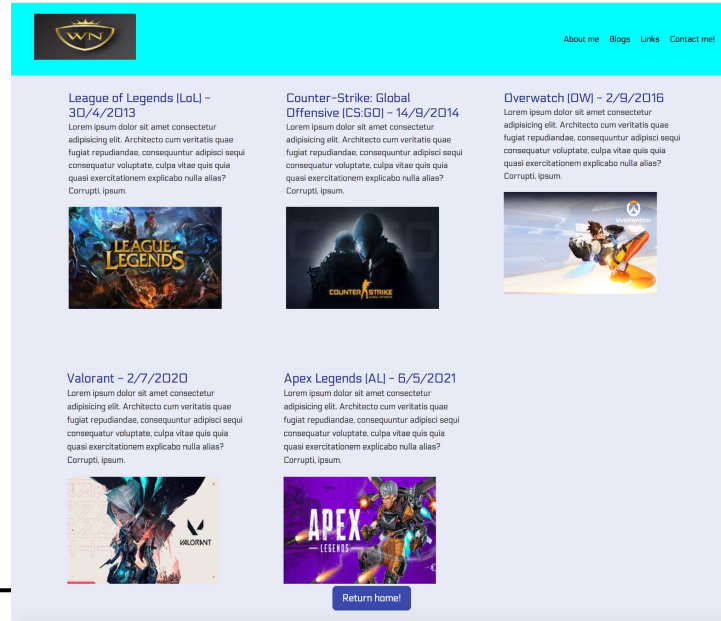

Blogs - Desktop

Wireframes:

- Originally aimed for two columns

Actual Design:

- Ended up with three columns

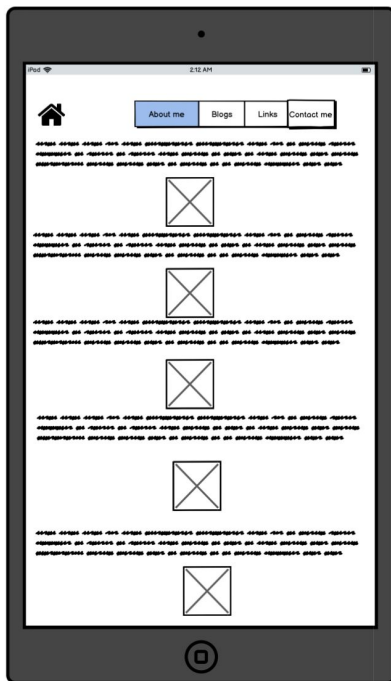

Blogs - Desktop

Components and features:

- Navigation bar
 - Blogs with filler text of my favourite games (Lorem used as placeholder text) with titles and dates
 - Scroll bar
 - Blog images
 - Grid used as display (2 rows, 3 columns) of blogs
 - “Return home” anchor tag that directs users to landing page
-

Blogs - Tablet

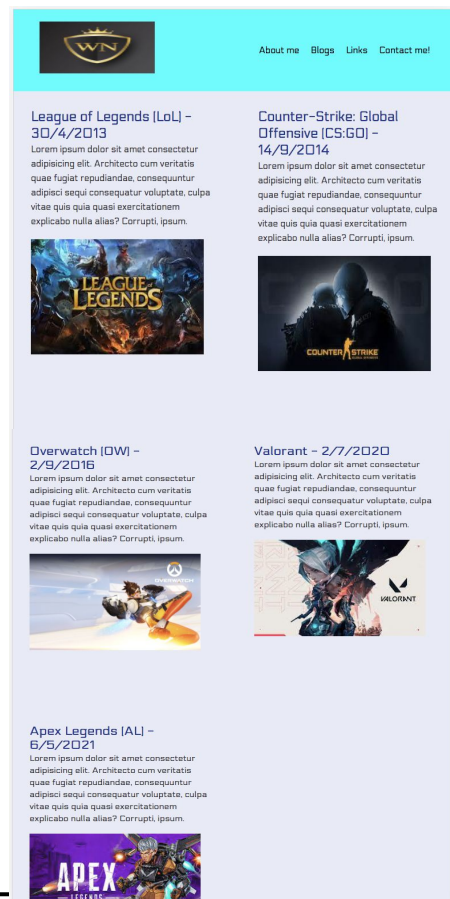

Wireframes:

Actual Design:

- Originally aimed for one column

- Ended up with 2 columns

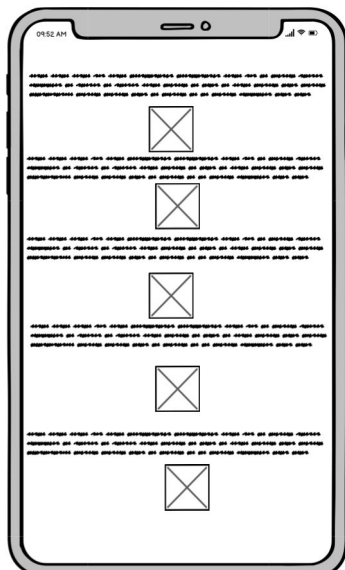

Blogs - Tablet

Components and features:

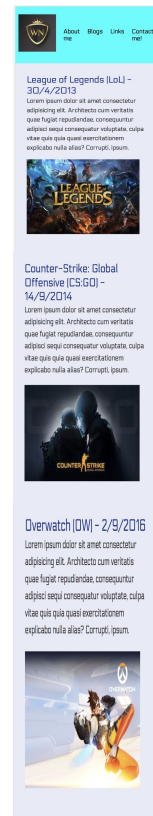

- Navigation bar
 - Blogs with filler text of my favourite games (Lorem used as placeholder text) with titles and dates
 - Scroll bar
 - Blog images
 - Grid used as display (3 rows, 2 columns) of blogs
 - “Return home” anchor tag that directs users to landing page
-

Blogs - Mobile

Wireframes:

Actual Design:

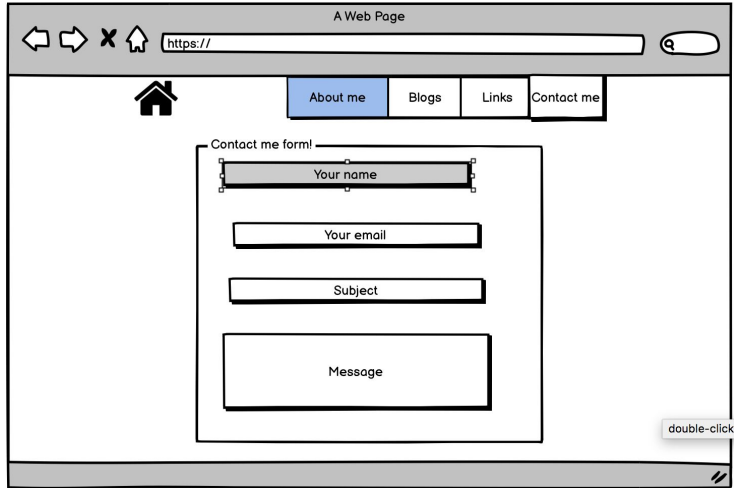

Blogs - Mobile

Components and features:

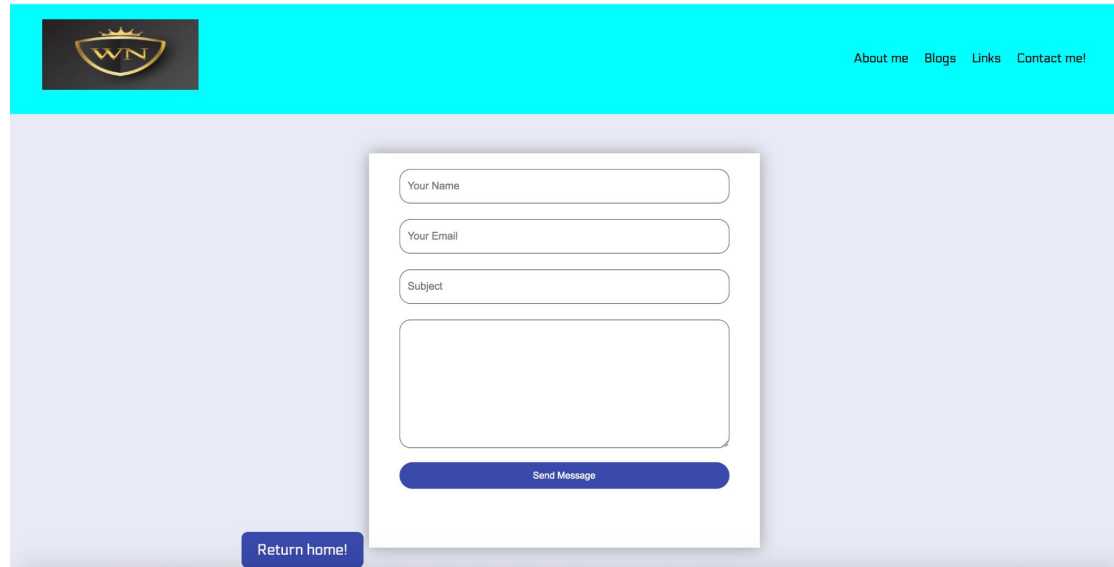

- Navigation bar
 - Blogs with filler text of my favourite games (Lorem used as placeholder text) with titles and dates
 - Scroll bar
 - Blog images
 - Grid used as display (Single column)
 - “Return home” anchor tag that directs users to landing page
-

Contact me - Desktop

Wireframes:

Actual Design:

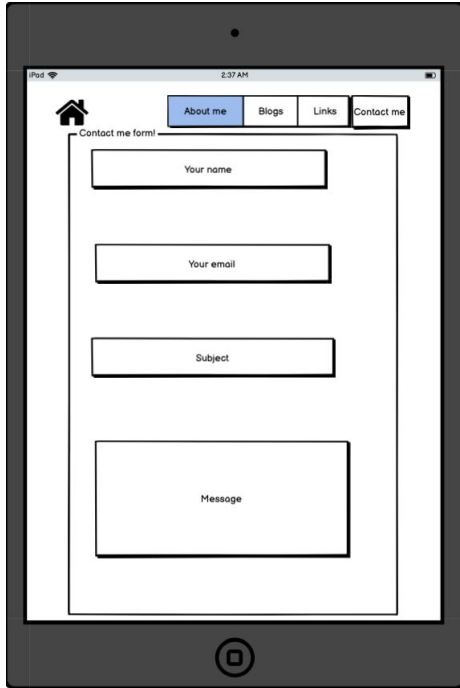

Contact me - Desktop

Components and features:

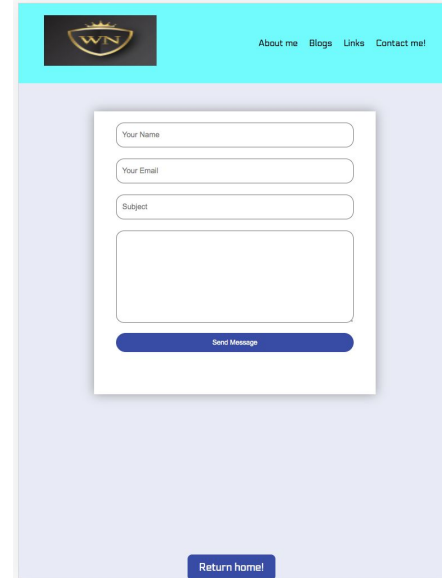

- Navigation bar
 - Forms (with user input)
 - No scroll (via flexbox)
 - “Return home” anchor tag that directs users to landing page
-

Contact me - Tablet

Wireframes:

Actual Design:

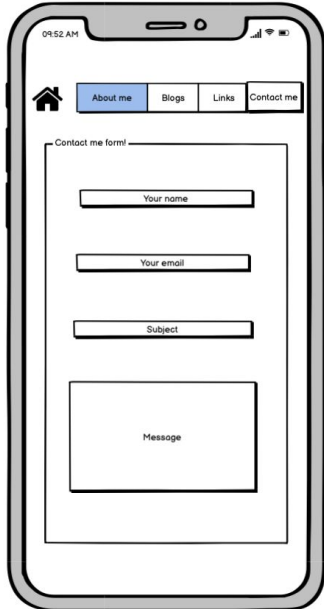

Contact me - Tablet

Components and features:

- Navigation bar
 - Forms (with user input)
 - No scroll (via flexbox)
 - “Return home” anchor tag that directs users to landing page
-

Contact me - Mobile

Wireframes:

Actual Design:

The actual design of the mobile contact form features a light blue header with a dark blue navigation bar. The navigation bar contains a logo with the letters 'WN' and a crown, and four menu items: 'About me', 'Blogs', 'Links', and 'Contact me!'. The 'Contact me!' item is highlighted. The main content area is white and contains four input fields: 'Your Name', 'Your Email', 'Subject', and a larger text area. Below the text area is a blue 'Send Message' button. The bottom of the screen is a solid light blue bar.

Contact me - Mobile

Components and features:

- Navigation bar
 - Forms (with user input)
 - No scroll (form adjusted to fit whole page)
-

Challenges/ Ethical Challenges

- CSS Layout
 - Media queries (should've created mobile versions first)
 - Image positioning
- Ethical: utilising images from the web (not my own)

Favourite part

- Creating navigation bar
- Linking them all across all 4 html documents via navigation bar
- Adding hover effects to the navigation bar

**Thanks for
listening! :D**
